# TENTH ANNUAL CELEBRATION OF TECHNOLOGY IN EDUCATION 2010

## MODEL SCHOOLS PROGRAM

### CALLING ALL TEACHERS AND STUDENTS!

Please join us at the **Tenth Annual Celebration of Technology in Education on Friday, April 16, 2010** to recognize and acknowledge the teaching and learning in Model Schools districts. Over 600 teachers and students will be in attendance showcasing the tremendous student work represented in 21st Century skills in technology based projects. Student teams representing Eastern Suffolk school districts will share the celebration spotlight.

Technology offers tremendous opportunities to use instructional time in innovative ways. One such opportunity is available through a program of the Dr. Jane Goodall Institute, Roots and Shoots. Roots and Shoots is a global network of more than 8,000 groups in 100 countries supporting youth to take action to improve our world. The program offers a positive message of hope, and empowers students to learn about global issues; design, and implement projects as a way of solving problems and making a difference. Model Schools is tapping into the expertise of Roots and Shoots for the Tenth Annual Celebration of Technology to provide approximately 30 Model Schools districts teachers with access to the Roots & Shoots website at <http://www.rootsandshoots.org>. Teachers that register for the Tenth Annual Celebration of Technology in Education can be provided with complimentary access to this site by emailing Denise Douglas-Faraci at [ddouglas@esboces.org](mailto:ddouglas@esboces.org). This membership will provide teachers with access to the Roots and Shoots database, discussion forums, and activity guides.

Schools are encouraged to showcase how they use instructional technology to think globally and act locally. As the world becomes increasingly smaller, it is important for everyone to think of themselves as a citizen of the world. Think about what can be done in your local community with instructional technology to help the world community. Teachers and students are able to share their project to other schools and communities. In addition, students will have an opportunity to show their projects and ideas to local corporations and politicians, paving the way for change in the world.

### GUIDELINES FOR EXHIBITORS

#### REGISTRATION PROCEDURE:

1. Complete the On-line Registration form at [www.esboces.org/MS/schoolreg.cfm](http://www.esboces.org/MS/schoolreg.cfm) by **February 12th, 2010**.
2. Please complete one online form for each separate exhibit.
3. Kindly send an electronic copy of your *Project Plan* by **March 5th, 2010** to [ddouglas@esboces.org](mailto:ddouglas@esboces.org)
4. Please be aware that the Celebration of Technology in Education is a media event. Teachers and chaperones need to be cognizant of any potential issues concerning individual students and the possible use of pictures and video. Kindly refer to local district guidelines regarding media release.

The Project Plan form and electronic copies of all forms and informational materials are available at [www.esboces.org/MS/schoolreg.cfm](http://www.esboces.org/MS/schoolreg.cfm)
