CORPORATE PARTNERS

CALLING ALL CORPORATE PARTNERS

THIS IS NOT YOUR TYPICAL
CONFERENCE INVITATION...

Each year, our Celebration gets bigger and better. Model Schools corporate partners are already calling to reserve their space and donate support. Why? Because our CTE conference is a rare opportunity to showcase company products and services through the LIVE and interactive work of students.

For this event demonstrating the use of innovation in the classroom, teachers and their students gather to share the exciting new ways they have been using technology in education.

As a corporate partner, take the opportunity to show how your products can help assist classroom learning. Mingle with school board members, government officials, teachers, students, and parents in this collegial environment.

Selected corporate partners will be honored with the Giraffe Award for really "sticking their neck out" in their support and work for the Long Island District Community.

The Tenth Annual Celebration of Technology in Education is the place to be! Local newspapers and news shows will be there to record the exhibitions and publicize the accomplishments of students.

This year we are particularly excited about our continued theme: How Do You Use Instructional Technology to Think Globally and Act Locally?

Our teachers and students are encouraged to align their projects to this theme. You are more than welcome to include variations of this theme in your own demonstrations. This is your chance to see how our teachers and students in the community use Instructional Technology to help the global community.

Please contact us so that you can reserve your place at this exciting, educational milestone.
