Interested in working with and caring for a variety of small animals? Theory and hands-on applications will prepare you to work in the veterinary field. You will learn basic animal care, external anatomy, parasitology, infection control, laboratory skills, nutrition, first aid, and an introduction to alternative and preventative medicine. **24 classes**

**ASC1010**
A: 10/21 – 02/03  M/W   6:30 PM – 9:30 PM  
B: 03/16 – 06/17  M/W   6:30 PM – 9:30 PM  
**Location:** BTC  
**Tuition:** $1,095  

*Additional requirements: a scrub top will be required for the class. A current tetanus vaccination is recommended.*
**ANIMAL FIRST AID**

Animals can’t tell you what’s wrong with words, but they can communicate in other ways. Learn how to watch behavior and take vital signs so you can identify illnesses and injuries early. Wound care, bandaging, treatment for shock, allergic reactions, and birthing emergencies are some of the topics covered in this course. It is recommended that all students have a current tetanus vaccination.

7 classes  
ASC1030  
A: 10/10 – 11/21   Th   6:30 PM – 9:30 PM  
B: 03/19 – 05/07   Th   6:30 PM – 9:30 PM
