#### **Objectives:**

- Staff will review why unaccompanied and undocumented youth flee to the U.S. despite the risks and develop knowledge of current data regarding school age immigrants and students in New York, on Long Island and in Suffolk County.
- Staff will understand why learning *from* immigrant students is just as important as learning *about* them.
- Staff will learn about second language acquisition and strategies to help new immigrants in the classroom.

**TOGETHER**  
*We can make a Difference*
