

Students with Disabilities Session 1

How do we create inclusive and welcoming learning environments for all students that allow them to succeed in a remote or hybrid classroom? This session will introduce high impact strategies that foster a successful and productive learning environment for all students, with additional considerations for students with disabilities. This session will also introduce strategies for helping students access digital content in a virtual environment, including applying principles of Universal Design for Learning (UDL) and accessibility features that are available on your students' devices to help them access the virtual classroom successfully.

Presented by: Eastern Suffolk BOCES

Trainer Dr. Peggie Staib

Date: 3/2/2021

Time: 2:30 – 4:00 PM
