Coding for Library Media Specialists

This workshop will provide Library Media Specialists with basic tools they need to introduce computer coding to students in grades K-12. Block based coding programs will be explored including Code.org and Scratch. We will also investigate opportunities to bring coding into Maker Spaces.

Presented by Keri Haas, Technology Integration Specialist, Eastern Suffolk BOCES

Date: April 10, 2018
Time: 12:30 - 3:30 pm
Place: Suffolk Cooperative Library System, Training Lab
