

✓ WHO ARE WE?

AccuHealth Group is a Health and Wellness company, who believes true healthcare should be based on the prevention and early detection of diseases and chronic illnesses at a point where they are most treatable.

✓ WHAT DO WE DO?

We save you time by eliminating multiple office visits with our custom-designed, onsite physical examination service either in your workplace or in our state-of-the-art medical RV. We provide a wide array of non-invasive ultrasound testing along with a comprehensive biometric blood screening. Our onsite services also include EKGs, Echocardiograms, Carotid Duplex tests, Pulmonary Function tests, Abdominal Aorta Sonograms, and Lower Arterial Duplex and Upper Extremity Arterial Ultrasounds.

Our Mobile Medical RV affords us the ability to transport a modern, fully functional medical office and staff right to your location!

The results obtained within this program are evaluated by our board certified specialists and made available to you through our user friendly Online Health Portal. Typical results will be made available to you within 5 business days of your visit.

HOW IT WORKS

1. CHECK IN

Complete HRA (Health Risk Assessment), review and sign HIPAA compliant consent forms and validate insurance information.

2. BASELINE ASSESSMENT

A certified medical assistant will perform an evaluation of your current vitals including blood pressure and body mass index. Based on your medical history an Electrocardiogram (ECG or EKG) and/or a Pulmonary Function Test (PFT) will be performed in order to record both the electrical activity of the heart, as well as, your maximum lung capacity.

3. PHYSICIAN INTERVIEW & ASSESSMENT

A physician will review your medical history, lifestyle, and discuss any concerns you may have. They will review and discuss the results of your EKG and PFT. A full exam will be conducted at this time.

4. COMPREHENSIVE BIOMETRIC SCREENING

Based on your medical assessment, a biometric blood screen will be performed to determine your risk level for chronic illness and medical conditions.

5. ULTRASOUND IMAGING

A non-invasive medical test will be given, that produces pictures of internal body structures which help diagnose and prevent progression of medical conditions.

6. CHECK OUT

7. RESULTS The results of your physical will be available within 5 business days. The individual reports of each diagnostic test and biometric blood screening performed will be located on the AccuHealthGroup.com/online-health-portal.

If further treatment is required, you will have access to our affiliated medical practice or our numerous affiliated hospitals throughout Long Island and New York City, affording you and your family exclusive access to the best healthcare.

GET YOUR HEALTH & WELLNESS PHYSICAL WITH NO OUT-OF-POCKET EXPENSES.*

*According to the Affordable Care Act, Health and Wellness Physicals are fully covered by insurance resulting in no out of pocket expense to the patient.
